

**Lange/Harman/Smith
Classroom supplies:**

- Each classroom will be supplied with a spray bottle with 70% alcohol mixture, 1 box of dry towels and gloves.
- Sanitizing wipes will be available as supplies are obtainable.
- Supplies will be replenished as needed.

Daily cleaning schedule:

- Custodians/reassigned staff will disinfect hard surfaces of each room at all class transitions.
- Custodians will clean and disinfect all high volume touch points and restrooms with a 70% alcohol mixture following all transitions of students.
- At all three buildings, sanitize all playground structures before school.
- At Smith, sanitize both structures with 70% alcohol mixture between 12:15-2.
- After students are on equipment at Lange and Harman, playground equipment will be sprayed with a 70% alcohol mixture.
- At the end of each day, a deep cleaning will be conducted throughout the building. Disinfecting chemicals will be used with Clorox 360 Electrostatic Sprayer, Protexus Electrostatic Wand, Karcher Mister/Pressure washer or large volume sprayer in all classrooms, on high volume touch points and in restrooms.

Additional precautions:

- Extra staff will be on hand and available if a room has a sick student during the day and the room must be closed and sanitized.
- The use of Idea Labs at Harman and Smith, as well as shared supplies, will be temporarily suspended.
- Playground area and all equipment is closed to the public during school hours.

**Oakwood High School/Oakwood Junior High:
Classroom supplies:**

- Each classroom will be supplied with 3 spray bottles with 70% alcohol mixture, 1 box of dry towels and gloves.
- Sanitizing wipes will be available as supplies are obtainable.
- Supplies will be replenished as needed.

Daily Cleaning Schedule

- Between each class change, teachers and/or students under teacher supervision will spray touch points with 70% alcohol mixture.
- Custodians will clean and disinfect all high volume touch points and restrooms with a 70% alcohol mixture following all transitions of students.
- During the hour break, all high touch points and restrooms will be disinfected.
- Between each class change in computer labs, teachers will supervise students wiping down the equipment they used with 70% alcohol mixture and towels.

- At the end of each day, a deep cleaning will be conducted throughout the building. Disinfecting chemicals will be used with Clorox 360 Electrostatic Sprayer, Protexus Electrostatic Wand, Karcher Mister/Pressure washer or large volume sprayer in all classrooms, on high volume touch points and in restrooms. Students should leave chairs pulled away from desks and classroom doors should be left open to facilitate cleaning.

Additional precautions:

- Extra staff will be on hand and available if a room has a sick student during the day and the room must be closed and sanitized.
